

KARTH WOOD MARK *Home Deco*

About us

Karth wood mark , established in 2021, is a second-generation, Ahmedabad-based manufacturing firm led by Mr. Paresh Khambhayata. We specialize in CNC and laser work on MDF, Corian, SS, MS, ACP, and cement sheets, delivering customized signages, LED boards, project branding solutions, and corporate gifts including trophies and awards.

With advanced in-house infrastructure, strict quality control, and a no-compromise approach to materials, we ensure durable, well-finished, and timely solutions. Our work is trusted by clients across construction, real estate, architecture, and corporate sectors, both in India and internationally.

PRODUCT CATALOGUE

SIGN BOARD

We design and manufacture custom sign boards using acrylic, metal, wood, ACP, and LED integrations. Our sign boards are engineered for clarity, durability, and finish, supporting brand visibility across project sites, sales offices, corporate spaces, and commercial properties.

Karth Wood Mark

AWARDS

We design and manufacture custom awards using wood, acrylic, metal, and laser-cut elements. Crafted with precision and refined finishes, our awards are ideal for corporate recognition, project milestones, inaugurations, and leadership acknowledgements.

Karth Wood Mark

TRAYS

We provide project-specific custom trays for real-estate and corporate clients, suitable for welcome kits, inauguration hampers, and branded gifting. Designed for durability and brand alignment, our trays support professional presentation and consistent identity.

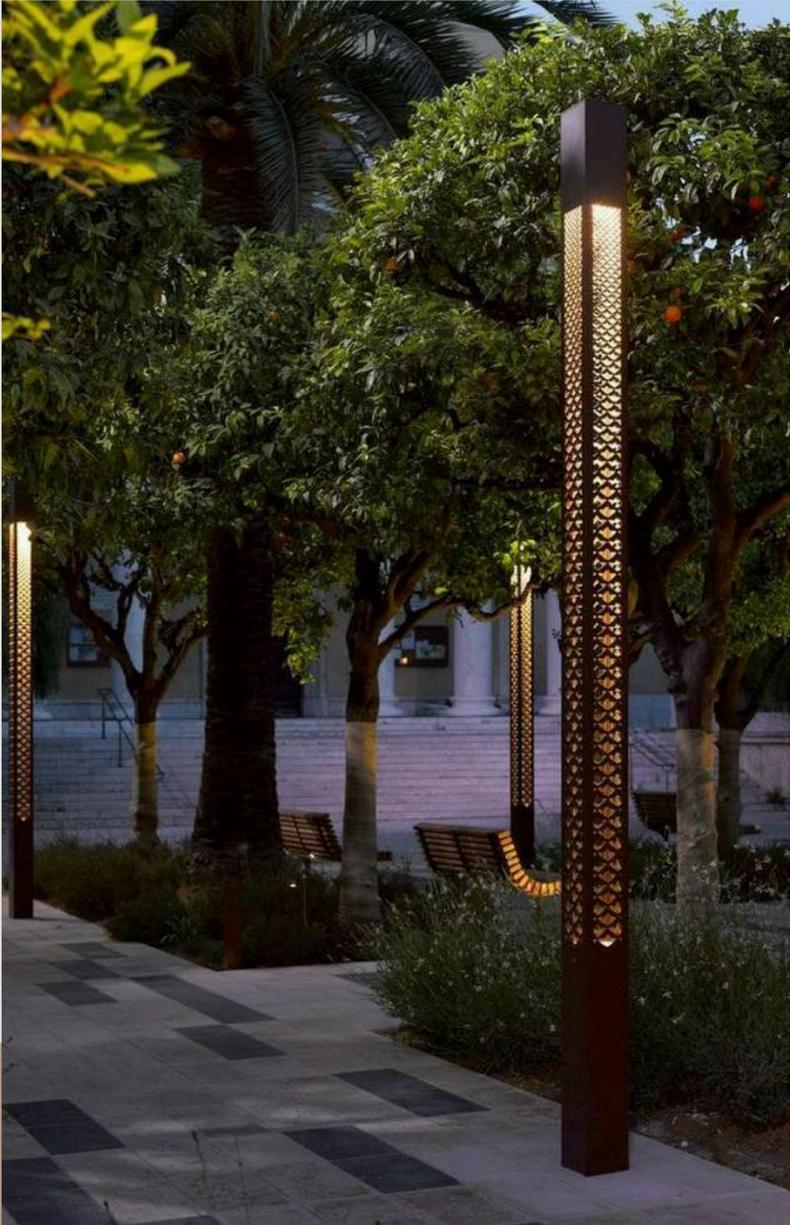

BOXES

We design and manufacture custom boxes using wood, acrylic, metal, and laser-cut elements. Crafted with precision and refined finishes, our awards are ideal for corporate recognition, project milestones, inaugurations, and leadership acknowledgements.

BOLLARDS

We design and supply custom bollards using metal and composite materials, engineered for durability, safety, and visual consistency. Our bollards are suitable for commercial entrances, driveways, pedestrian zones, and controlled access areas, balancing function with clean aesthetics.

WALL DECOR

We design and manufacture custom wall décor and architectural art using CNC and laser-cut techniques on MDF, wood, metal, and composite materials. Our wall décor solutions are widely used in lobbies, sales offices, corporate spaces, show flats, and common areas, adding visual depth, identity, and refined detailing to interiors.

ELEVATION

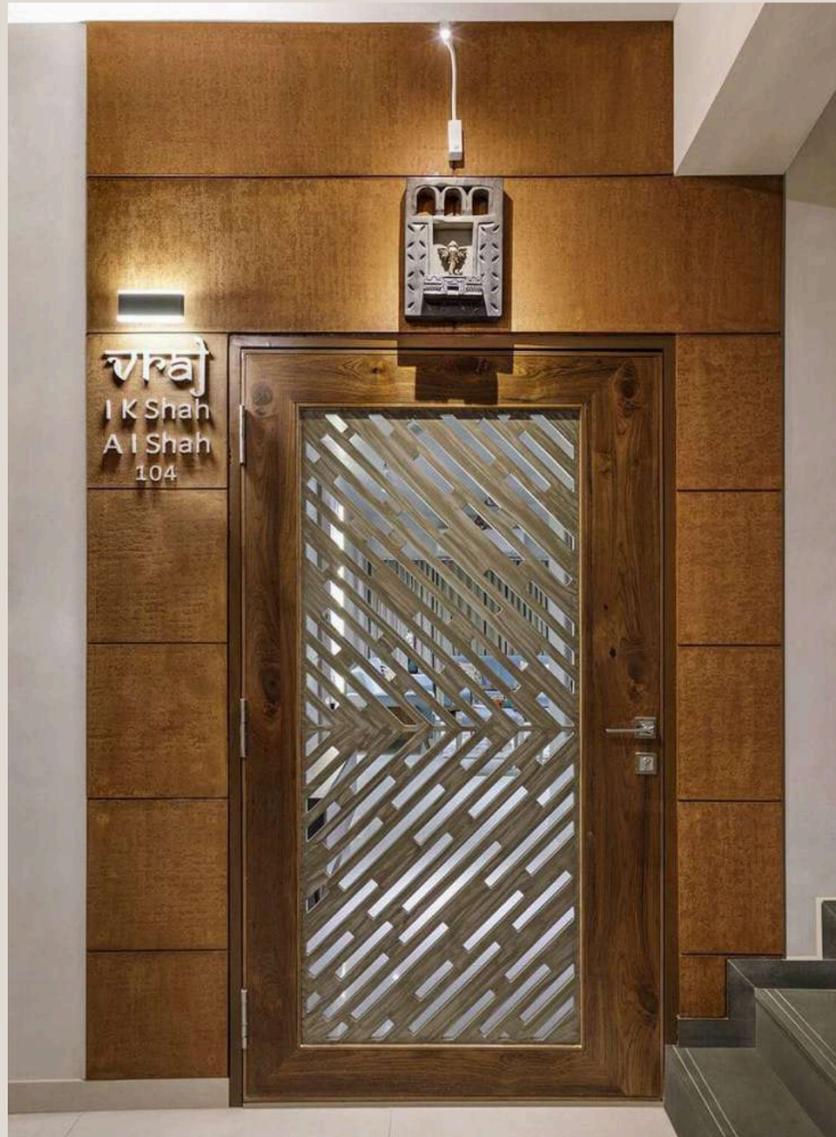

We design and execute custom elevation elements using CNC and laser-cut fabrication across metal, ACP, MDF, and composite materials. Our elevation solutions enhance façades, entry features, signage integrations, and architectural highlights, delivering clean detailing, durability, and visual consistency aligned with project design intent.

ENTRANCE GATE

Karth Wood Mark

We provide project-specific entrance gate solutions for residential and commercial developments, including laser-cut metal gates, branded entry features, and architectural gate elements. Built for durability and precision, our gates align with project design intent, security needs, and long-term performance.

NAME PLATE

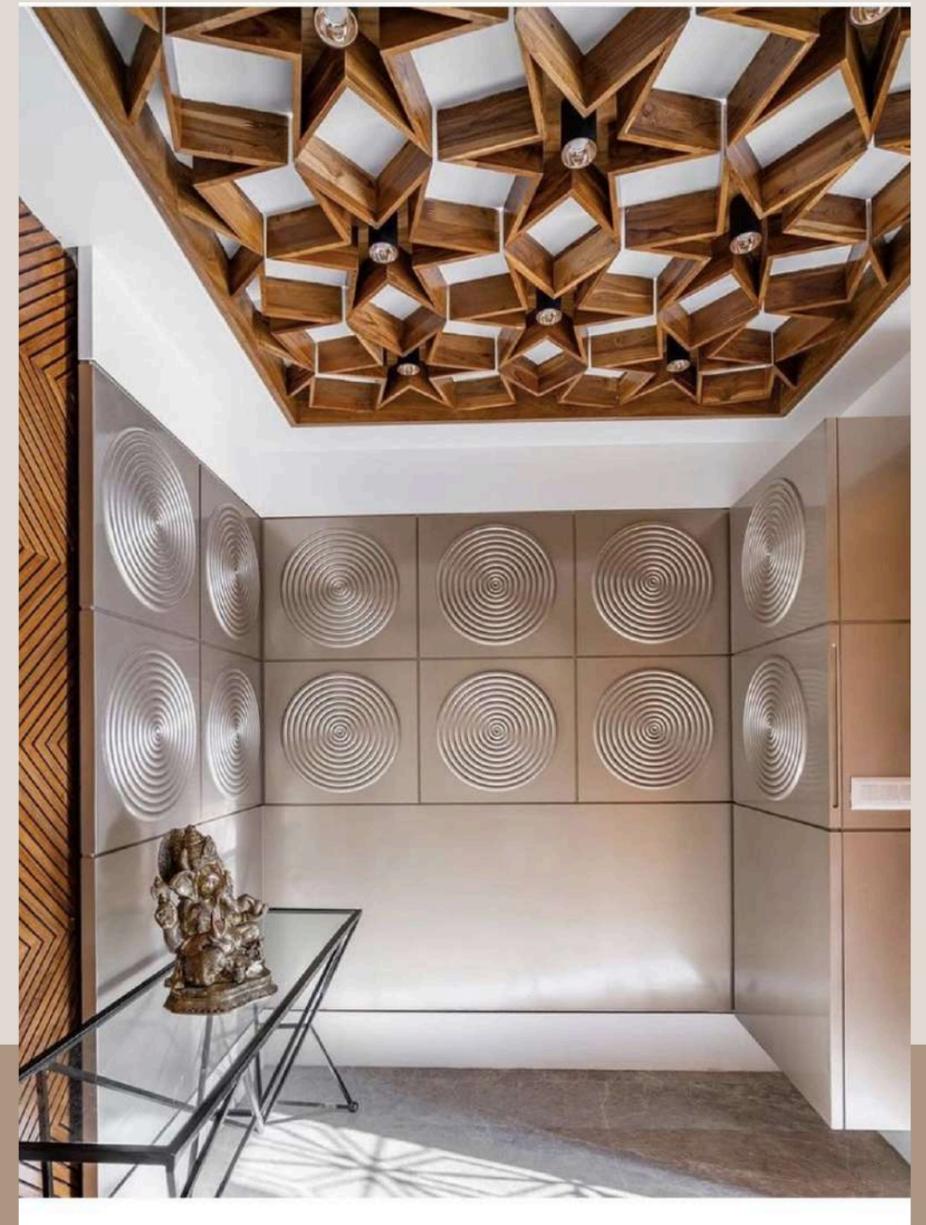

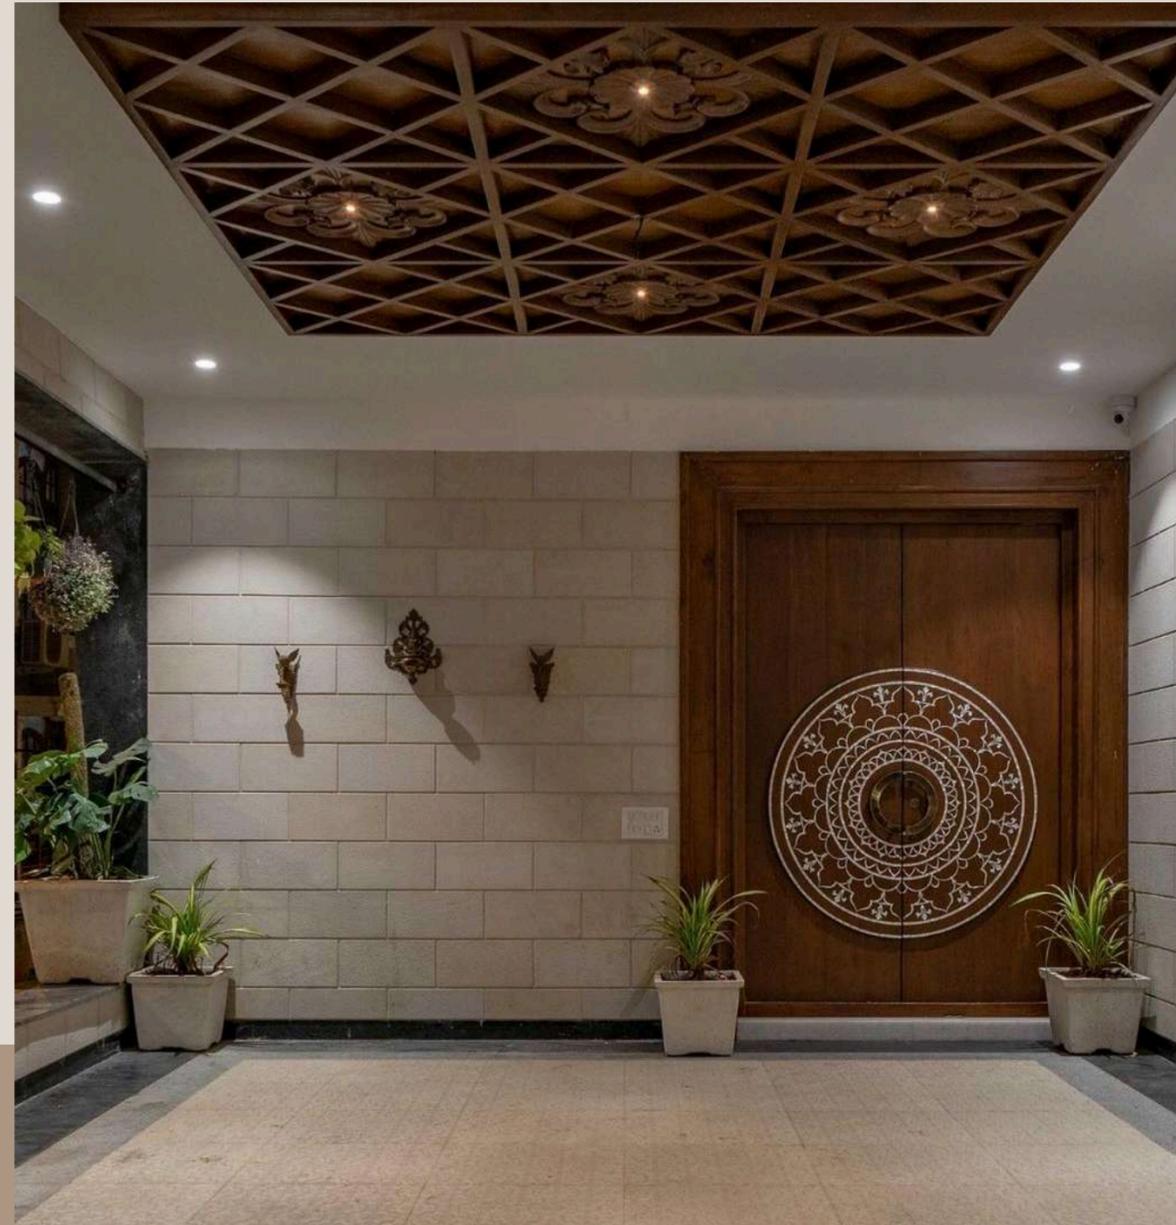

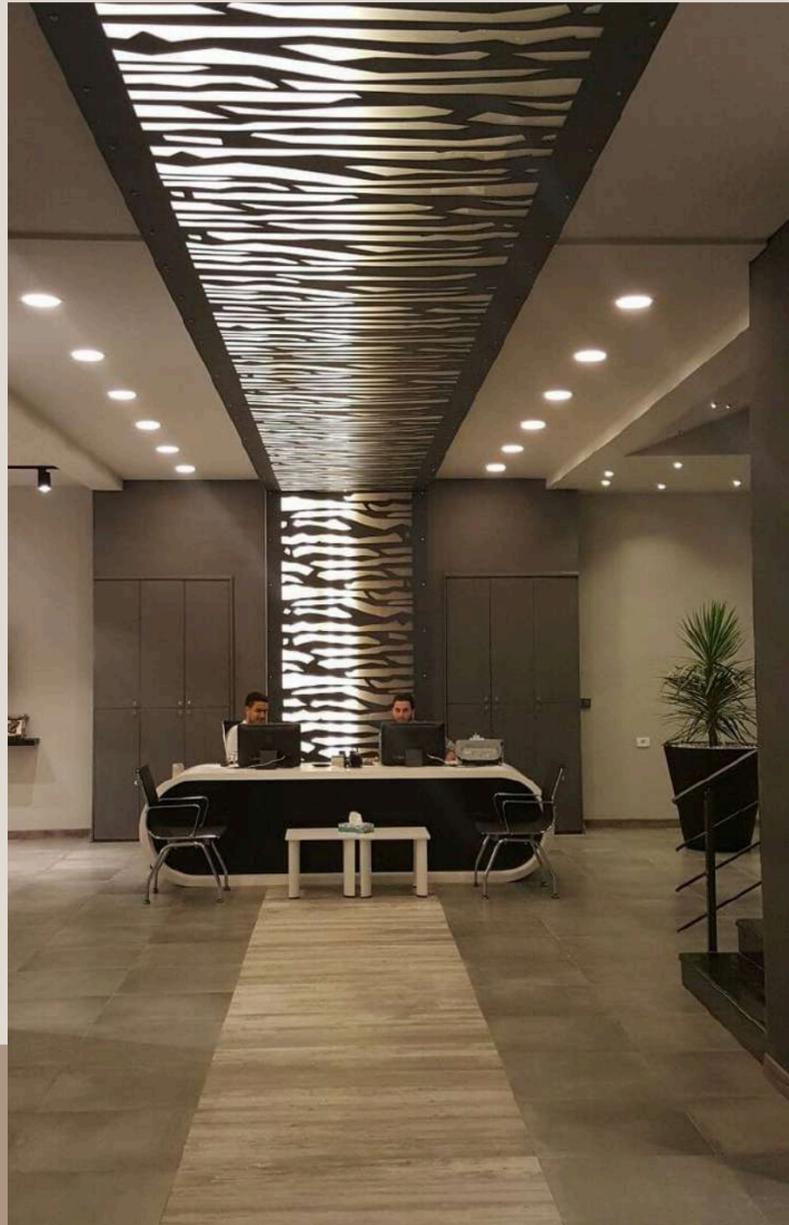

We provide project-specific name plates for residential and commercial developments, including unit name plates, flat numbers, office identification, and common-area labeling. Designed for consistency and longevity, our name plates align seamlessly with overall project branding and architectural themes.

CEILING

We provide project-specific ceiling solutions for residential and commercial developments, including decorative panels, CNC-cut ceiling elements, and LED-integrated designs. Engineered for precision and finish, our ceiling works support both functional lighting needs and architectural aesthetics.

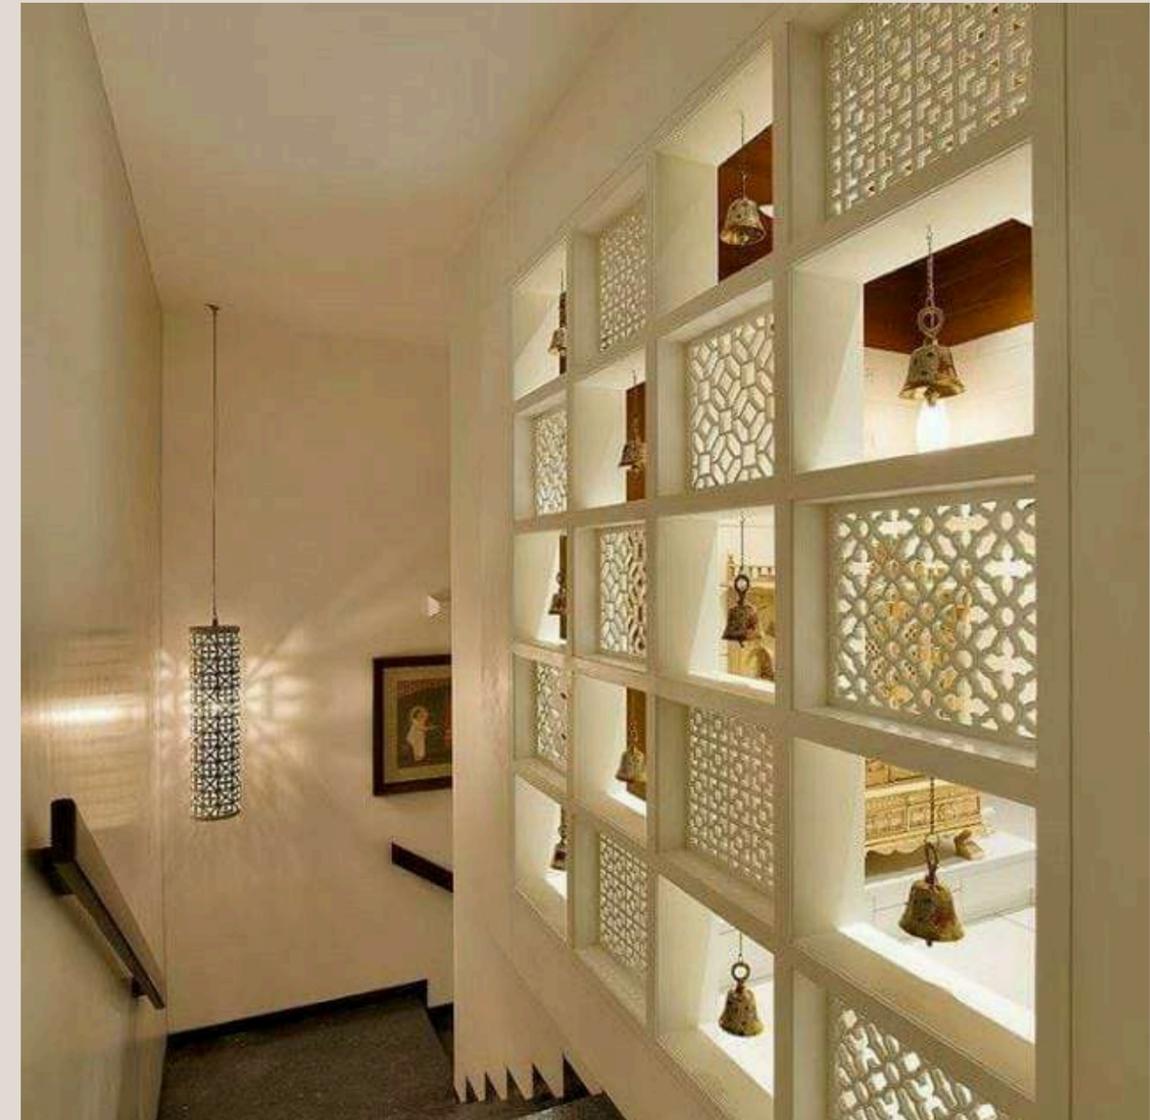

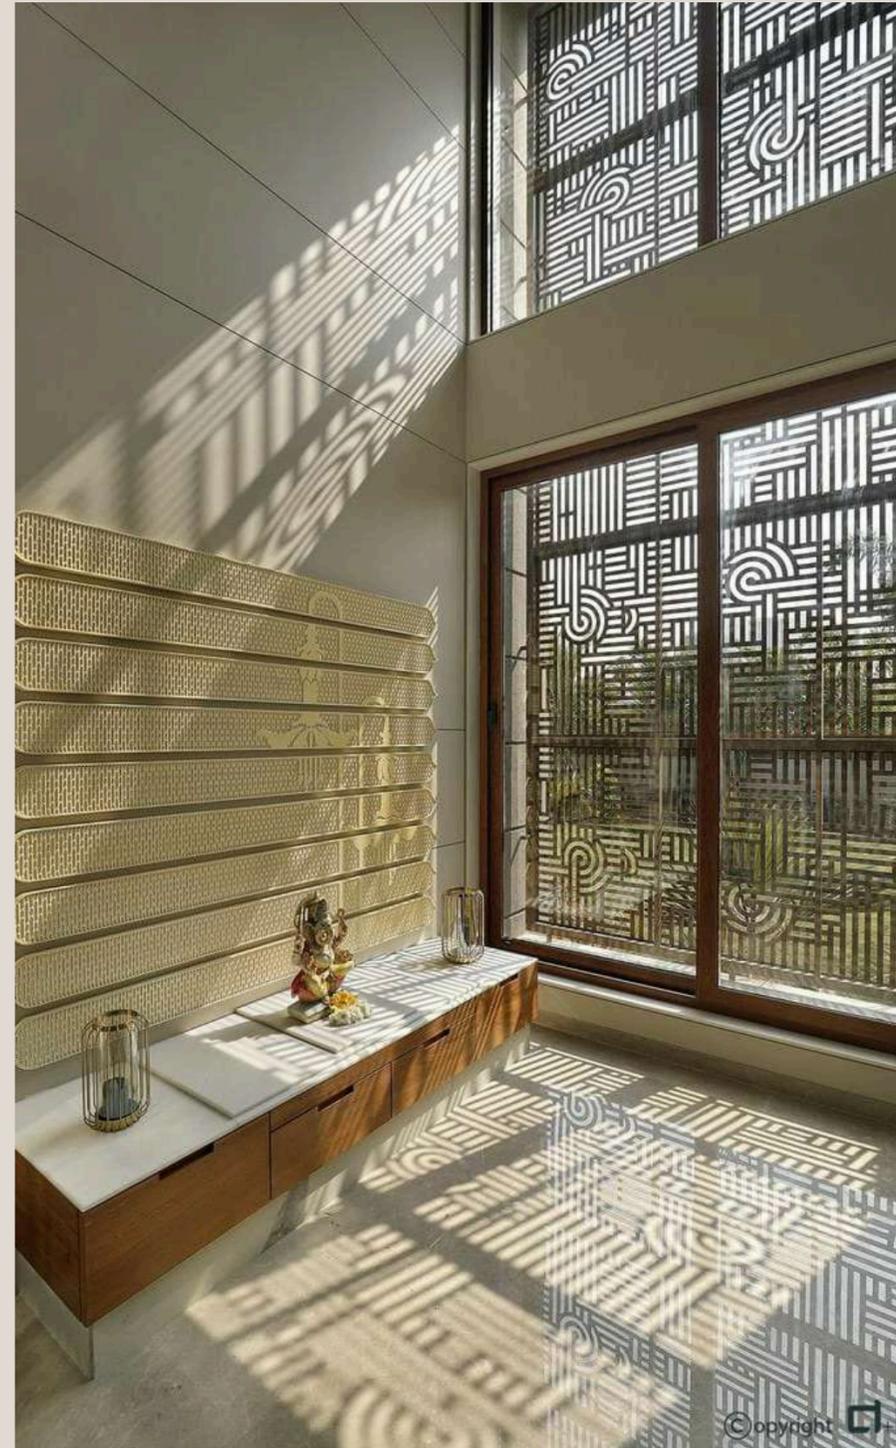

PARTITION

We design and manufacture custom partitions using CNC and laser-cut fabrication across wood, MDF, metal, and composite materials. Our partition solutions balance privacy, functionality, and visual appeal, making them suitable for offices, sales spaces, and commercial interiors.

TEMPLE

We design and craft custom temple units with intricate CNC and laser-cut detailing on wood and composite materials. Our temple solutions combine traditional aesthetics with precise craftsmanship, making them suitable for residences, corporate spaces, and spiritual areas.

WALL CLOCK

Karth Wood Mark

We design and manufacture custom wall clocks with laser-cut and CNC detailing, tailored to reflect brand identity and interior aesthetics. Crafted using quality materials and precise finishes, our wall clocks are ideal for corporate offices, lobbies, meeting rooms, and reception areas.

FRAMES

We design and manufacture custom wall décor elements using CNC and laser-cut techniques on wood, MDF, metal, and composite materials. Our solutions add visual depth, refined detailing, and brand alignment to corporate interiors, lobbies, sales offices, and common areas.
